Forecast for Sunday 23 Oct 2022

Weather: Rain will quickly spread north across all areas, becoming heavy with a small chance of lightning. These wet conditions soon clearing away north later in the morning, with a mainly dry afternoon following. Sunny spells and isolated showers then expected.

Chance of cloud-free hill tops above 800m: 20% to start the day becoming 80% during the morning.

Low Cloud and visibility: Widespread cloud obscuring routes above 500m during the morning, with some patches down to 300m during heavy rain. Cloud lifting and breaking as rain clears, although isolated patches returning to 600m during any heavy showers. Poor visibility in the rain then becoming good during the morning as cloud lifts and breaks.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Very poor conditions at first, with heavy rain, and near gales across highest summits. Winds easing, with a generally fine afternoon expected on the hills. A good day for a later start – though still watch out for the odd afternoon heavy shower.

Forecast for Monday 24 Oct 2022

Weather: A mixture of bright or clear spells and scattered showers. These occasionally heavy with a risk of lightning, but moving quickly through. Warm sunshine expected between the showers, though tempered somewhat by the breeze.

Maximum wind: Southwesterly 20mph with gusts 30-40mph.

Chance of cloud-free hill tops above 800m: 40%, best chance in the northeast.

Low Cloud and visibility: Cloud occasionally obscuring tops above 500m, more persistent across western hills including Yr Wyddfa (Snowdon). Generally good visibility away from low cloud but briefly a few km in showers.

Temperature: **Valleys:** Plus 11 Celsius rising to Pus 15 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Well above summits.
